## JOB TYPE

Hoarding / Squalor

## COMPLETION DATE

March 2023

## MAN HOURS

48

## THE CHALLENGE

After years of rubbish build-up and dangerous living conditions, this client was in need of drastic action. Finally having the courage to reveal their living conditions and seek help, the specialist hoarding and squalor technicians were ready to act quickly and restore the property to a safe and healthy environment for all involved.

## THE SOLUTION

The AllAces team jumped into action, working with commitment and compassion to clean and restore the property. Acting without judgement, our trained and certified technicians cleared the property of rubbish, with proper disposal, before cleaning and sanitising all surfaces.

## THE OUTCOME

After over 48 man-hours and multiple vans of rubbish, the property was treated with antimicrobials to effectively sanitise and treat any remaining biohazardous materials. The AllAces team provided this client with the respect and sensitivity needed to undertake the entirety of this job and restore a safe and healthy living space.
